

## Leaping Frogs

**Leaping Frogs** is an exciting physics environment.

We explore electricity and air pressure, and at the same time have loads of fun!

### **Leaping Frogs** involves

1. children making electricity and exploring air and pressure
2. generating electricity using a hand cranked generator
3. blasting objects to great heights (e.g plastic frogs)
4. team work

**Leaping frogs** is an amazing physics environment.

Allowing children to explore cause & effect, work & energy, electricity & air.

Ultimately, the drama of life!!
