

DJ for a Day

We introduce the children to electronic music using technology. Children will use iPads, Launch Pads, Samplers, Wii Remotes, and Microphones.

DJ for a Day involves

1. using iPads and Launchpads to create energetic music
2. using a Wii remote to make sounds
3. recording voices using a microphone
4. transform those voices into giants, monsters, or chipmunk sounds

DJ for a Day also puts focus on music performance, music making, and creativity which involves listening, quick thinking, team work, and fun!!
