

elecTrick

elecTrick is a looking glass into the wonderful world of electricity and electronics!

elecTrick involves

1. an intriguing electricity presentation!
2. children making their 1st electric circuit
3. attaching an LED light and/or buzzer
4. powering an LED with batteries and potatoes!
5. children can keep their circuit

elecTrick is a brilliant way for children to see the beauty and practical application of electricity. It involves control, wonder, and new ideas!
